

A **nuclear** Iran will treat the world as it treats its own citizens

Iran's Unelected Leadership:

- Ignores UN General Assembly's 2006 call to abolish stoning of women charged with adultery
- Ignores UN General Assembly's 1996-2006 calls to end persecution of Baha'i and other religious and ethnic minorities
- Arrested and beat five peaceful women's rights protestors on 3/8/06 & 6/12/06. Also arrested and beat thirty women who publicly protested the trial of these five women on 3/4/07.
- Disqualified thousands of reformist candidates in the 2006 elections
- Shut down more than 100 reformist newspapers since 2000
