

# WHO IS RESTORING SIGHT TO THE BLIND?

**Millions of the blind will benefit from Israeli innovations**

*Nano Retina, an Israeli company, is developing an ultra small, easy to implant, artificial retina designed to restore sight. scientists are working to develop a "bionic eye" for people who are losing their sight due to degenerative conditions.*

*Nano Retina, an Israeli company based in Herzliya Pituah, is developing an implant that will replace damaged photo-receptors in the eyes and provide users with grayscale vision. Engineers with the company say their chip will enable*

*users to identify facial features and watch television.*
